# What is the multiplication tables check?

- An on-screen check consisting of 25 times tables questions.

# What will be tested in the check?

- Only multiplication facts will be assessed not division.
- The 1 times table is not included – apart from some practice questions.
- There will be a particular focus on the **6, 7, 8, 9, and 12** times tables.

# How will the test run?

- There will be a three week window, in June, for children to take the test. They will be taken out in small groups.
- Children will have 6 seconds to answer each question.
- Before the actual test starts, there will be 3 practice questions.
- The test should take no longer than 5 minutes.

- In order for children to pass the check, they must achieve full marks.

- You will receive a copy of your child's score in their end of year report.

- However, individual school results will not be published in performance tables.

00:03

3 / 25

**5 x 6 =**

1	2	3
4	5	6
7	8	9
<-	0	Enter

The image shows a digital interface for a multiplication quiz. On the left, there is a circular timer showing '00:03' and a progress indicator '3 / 25'. The main area features a blue bar with the equation '5 x 6 ='. Below this is a white input field. To the right of the input field is a numeric keypad with buttons for digits 1-9, 0, a backspace key (<-), and an 'Enter' key.
